

## Sam the Safety Dog says ...

Sam, the NSC Safety Dog, is here to talk about safety with kids like you! This time, Sam has a special reminder!

**“Don’t swat at bees when you’re playing outside – it can make them angry. Stay calm and move away from them. If you get stung, tell an adult right away.”**

## You’re the artist

During summer, it can get very hot outside. That means you need to drink lots of water!

If you could design your own water bottle, what would it look like? Use the water bottle below to create your own design.

## Unscramble safety

What summer fun safety-related words are hiding? Unscramble the letters to find out.
